## PROFILE

I develop front-end web and I'm passionate about using codes and designs to make ideas come to life.

With an eye for pixel-perfect design and a commitment to writing quality performanc code, I build strong, beautiful, and swift web applications with incredible performance in record time. I excel in every stage of the life cycle of software development, including Agile methodologies, coding, and maintenance.

I have a technology obsession, and in the future I want to work with artificial intelligence, virtual reality, augmented reality, and mixed reality.

## EXPERIENCE

### ZERO LIMIT RESOURCES LTD

Collaborated to create strategic initiatives to design, code, and test solutions.

Effectively coded software changes and alterations based on specific design specification.

Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.

Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.

Remained dedicated to emerging technology and the latest digital marketing concepts.

## STACK AND TOOLS

REACT/JAVASCRIPT/SCSS/CSS/HTML/NPM/MATERIAL-UI/GIT/FIGMA

## INTEREST

User Interface/Accessibility/Software Architecture and Design/Animation/Micro-interaction/Virtual Reality/Augmented Reality.

## PERSONAL PROJECT

### IQ TEST

A test quiz site that builds the human iq level by answering some random questions and displays their results.

Reactjs/contextAPI/css

<https://samuelukpabia.github.io/IQ-Test/>
